LENS/CMP Seminars - 2017

In the Spring Semester 2017 all seminars were held on **Thursdays at 12:15 pm** in **Swain West 252**, unless otherwise noted. In the Fall Semester 2017 all seminars were held on **Fridays at 3:30 pm** in **Swain West 252**, unless otherwise noted.

Date	Speaker	Title	Host
January 9	SPRING SEMESTER COMMENCES		
February 16	Tine Greibe, National Center for Micro- and Nano-fabrication, Technical University of Denmark	"Quasiparticles and E-beam Lithography"	Dave Baxter
February 23	Zhiqiang Mao, Tulane University	"Relativistic Fermions Generated by Square Lattices in Layered Compounds"	Shixiong Zhang
March 9	Deyu Li, Vanderbilt University	"Phonon Dynamics at Surfaces and Interfaces"	Shixiong Zhang
March 11-20	SPRING BREAK (APS MARCH MEETING MARCH 13-17)		
March 30	Moustafa Tanhayi Ahari, Indiana University Physics Department	"Non-Abelian fermion parity interferometry of Majorana bound states in a Fermi sea"	Herb Fertig
April 6	Gregory Fiete, University of Texas at Austin	"Searching for topological phases in transition metal oxide thin films and heterostructures"	Babak Seradjeh and Shixiong Zhang
April 13	Paul Hess, University of Maryland	"Observing discrete time crystals in a spin chain of trapped ions"	Phil Richerme and Babak Seradjeh
April 20	Mohammad Maghrebi, Michigan State University	"Many body driven systems coupled to a dissapative bath"	Babak Seradjeh
April 27	Yuli Lyanda-Geller, Purdue University	"Topological matter in charge carrier hole systems"	Herb Fertig
May 1-5	FINALS WEEK		
August 21	FALL SEMESTER COMMENCES		
September 1	Xianglin Ke, Michigan State University	"Novel quantum properties in correlated ruthenates via non-thermal perturbation"	Shixiong Zhang
September 29	Luiz Santos, University of Illinois at Urbana-Champaign	"Chern-Simons Composite Fermion Theory of Fractional Chern Insulators"	Gerardo Ortiz

October 6-8	FALL BREAK		
October 13	Benjamin Fregoso, Kent State	tba	Martin Rodgriguez-Vega
Saturday, October 21, Ballantine Hall, 9:00 am-3:00 pm	University IU SCIENCE FEST		
November 3	Sahinur Reja, IU Physics	"Superconductivity in coupled j-J segments and odd-gon Hubbard rings"	Herb Fertig
November 10	Le Luo, IUPUI	"Symmetry breaking and thermodynamics of parity-time symmetric Hamiltonians in a dissipative ultracold Fermi gas"	Phil Richerme
November 17	Zohar Nussinov, Washington University	"A Replica Based Approach to Machine Learning"	Gerardo Ortiz
November 19- 26	THANKSGIVING BREAK		
December 1	Shouhong Wang, IU Mathematics	"Quantum Mechanism of Condensation and High Tc Superconductivity"	Gerardo Ortiz
December 8, 2:30 pm	Bruce Gadway, University of Illinois at Urbana-Champaign	"Hamiltonian engineering based on synthetic lattices with cold atoms"	Martin Rodriguez-Vega
December 11-15	FINALS WEEK
